Errata for “Delta Modeling Workflow” in VaMoS 2012 proceedings

Michiel Helvensteijn

This document lists the technical and typographical errors I discovered in the paper “Delta Modeling Workflow” as it was printed in the VaMoS 2012 proceedings. My website always hosts the latest version of the paper with errors corrected: http://mhelvens.net/professional/publications

Each error description contains its location in the paper, the date it was discovered, and a detailed correction shown in context. Content that should be removed is red and struck through. Content that should be added is green and underlined.

page 5 - right column - formula at the top 1 March 2012

\[ |C| \geq 2 \land \forall y_1 \in C : \exists y_2 \in C : y_1 \sim y_2 \]
\[ y_1 \not\sim y_2 \land \exists z \in D : (y_1, y_2) \preceq z \]
